About GPO Access

GPO Access is a service of the U.S. Government Printing Office that provides free electronic access to a wealth of important information products produced by the Federal Government. The information provided on this site is the official, published version and the information retrieved from GPO Access can be used without restriction, unless specifically noted. This free service is funded by the Federal Depository Library Program and has grown out of Public Law 103-40, known as the Government Printing Office Electronic Information Enhancement Act of 1993.

GPO Access home page at: <http://www.gpoaccess.gov>

● **A-Z Resource List:** <http://www.gpoaccess.gov/databases.html>

Use GPO Access to search or browse official, full-text information from the three branches of the Federal Government. Databases are updated based on their print equivalent and generally date back to 1994. Biennial Report to Congress on the Status of GPO Access.

● **Federal Depository Library Program:** <http://www.gpoaccess.gov/fdlp.html>

For more than 140 years, the Government Printing Office (GPO) has kept America informed by producing and distributing Federal Government information products. GPO combines conventional technology with state-of-the-art methods whether providing public access to Government information online, or producing or procuring printed publications that serve the information needs of the U.S. Congress, Federal agencies, and the American public.

● **Preservation Agreement with NARA:** <http://www.gpoaccess.gov/about/naramemofinal.pdf>

The National Archives and Records Administration (NARA) recognizes GPO as an official archival affiliate for the electronic content on GPO Access. Signed in 2003, the NARA-GPO agreement provides for the permanent preservation and access to the online versions of the Congressional Record, the Federal Register, the Code of Federal Regulations, and other appropriate publications from GPO Access.

● **U.S. Government Online Bookstore:** <http://bookstore.gpo.gov/>

● **Ben's Guide to U.S. Government:** <http://bensguide.gpo.gov/>

Ben's Guide serves as the educational component of GPO Access by providing learning tools for K-12 students, parents, and educators. The site provides age-specific explanations about how the Federal Government works, explains the use of the primary source materials.

Brief History of the Monthly Catalog

The Printing Act of 1895 specified two products for the description and collocation of public documents.

- The Catalogue of the Public Documents of the [...] Congress and of All Departments of the Government of the United States (Document Catalogue) fulfilled the requirement for a "comprehensive index of public documents" to be prepared "at the close of each regular session of Congress."
- The Monthly Catalog of United States Government Publications (MoCat) met the stipulation for a "Monthly Catalogue ... which shall show the publications printed during a month, where [those publications are] obtainable, and the price thereof."

Thus, the original relationship was a current awareness listing (in the MoCat) and a permanent, authoritative, and comprehensive catalog (in the Document Catalogue).

In 1947, the cost and perennial difficulty of compiling the Document Catalogue led the Superintendent of Documents to recommend to the Joint Committee on Printing that the Catalogue be discontinued after the edition for 1940 was completed. The MoCat began to serve in the capacity of a single source for bibliographic information, fulfilling the requirements of the 1895 act, which stand to this day in 44 USC §1710-1711.

From 1895 until 1976, the Government Printing Office (GPO) arranged and described documents according to its own standards and systems. A major revision of the appearance and functionality of the MoCat took place in July 1976. GPO catalogers began producing machine-readable cataloging records (MARC) conforming to Anglo-American Cataloging Rules (AACR), Library of Congress Subject Headings (LCSH), the Ohio College Library Center (later the Online Computer Library Center, OCLC) bibliographic standards and formats, and other applicable national level standards. Since that time, GPO has gradually expanded the emphasis of its cataloging and indexing program from the production of a single printed product to the creation and maintenance of a database of high-quality, standards-based bibliographic records. These records are used by GPO and the library community to support an expanding array of bibliographic control activities.

The bibliographic data used to produce this abridged paper edition is also used to produce a World Wide Web (WWW) edition. The Web edition links users directly from bibliographic citations to electronic publications, and assists the public to locate information in depository libraries and through GPO sales. GPO bibliographic data is also available to libraries from the Library of Congress and from a variety of commercial sources for the creation of high quality local databases and public access catalogs.

Sample Entry

This catalog contains brief descriptions of U.S. Government publications arranged in Superintendent of Documents (SuDocs) classification number order and may be accessed by title keyword index (alphabetical list of truncated titles, arranged by important words selected from publications titles). These brief records are based on full bibliographic records available

in the online version of the Monthly Catalog which is cumulated from 1994, available as the Catalog of U.S. Government Publications (CGP) on the GPO Access internet site at <http://www.gpoaccess.gov/cgp/index.html>

The first of these is the fact that the system is not a simple one. It is a complex system, and the complexity is not only in the number of components, but also in the way they are interconnected. The second is the fact that the system is not a static one. It is a dynamic system, and the dynamics are not only in the way the components interact, but also in the way the system evolves over time. The third is the fact that the system is not a linear one. It is a non-linear system, and the non-linearity is not only in the way the components interact, but also in the way the system evolves over time. The fourth is the fact that the system is not a deterministic one. It is a stochastic system, and the stochasticity is not only in the way the components interact, but also in the way the system evolves over time. The fifth is the fact that the system is not a simple one. It is a complex system, and the complexity is not only in the number of components, but also in the way they are interconnected. The sixth is the fact that the system is not a static one. It is a dynamic system, and the dynamics are not only in the way the components interact, but also in the way the system evolves over time. The seventh is the fact that the system is not a linear one. It is a non-linear system, and the non-linearity is not only in the way the components interact, but also in the way the system evolves over time. The eighth is the fact that the system is not a deterministic one. It is a stochastic system, and the stochasticity is not only in the way the components interact, but also in the way the system evolves over time.

Federal Depository Library Program

The Federal Depository Library Program was established by Congress to provide free public access to U.S. Government publications. The program is administered by the Superintendent of Documents, U.S. Government Printing Office. Nearly 1,250 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Libraries designated as regional depository libraries have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions.

The Internet web site for the Program is located at:

<http://www.gpoaccess.gov/fdlp.html>

You may locate the depository libraries in your area by going online to the GPO ACCESS internet site. At:

<http://www.gpoaccess.gov/libraries.html>

The depository libraries that have selected the Item numbers and received publications listed in this catalog may be located by searching the publications in the online Catalog of U.S. Government Publications (**CGP**) at GPO ACCESS on the internet. At:
